CAREER OBJECTIVE

A creative **Frontend Developer** seeking an entry-level or internship opportunity to build modern, responsive, and user-friendly web interfaces. I aim to utilize my skills in React, Tailwind CSS, and modern JavaScript to create visually appealing and performance-optimized web applications while continuously improving my frontend expertise.

SKILLS

Technical Skills

- **Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frontend:** React.js, Next.js (Basic), Tailwind CSS
- **UI/UX:** Responsive Design, Modern UI Implementation
- **Tools & Platforms:** Git, GitHub, Firebase, Vercel, Netlify
- **Others:** REST API Integration, CRUD Operations, Performance Optimization, Cross-Browser Compatibility, Clean & Maintainable Code

Interpersonal Skills

Communication | Team Collaboration | Problem Solving | Time Management

PROJECTS

ContestHub - Contest Management Platform

[Live](#) | [Client](#) | [Server](#)

Explore and participate in creative contests through a premium glassmorphism interface, secure task submission, live countdowns, and smooth navigation.

- **Premium UI & UX:** Designed with a sleek, ultra-modern glassmorphism interface and fluid animations, the app ensures a seamless experience, allowing users to browse, register, and submit contest entries with minimal effort.
- **Smart Filtering:** The app features real-time search and category-based filters (e.g., Design, Development, Writing, Gaming), making it easy for users to find contests that match their skills.
- **Multi-Role Dashboard:** The platform features three distinct roles—User, Creator, and Admin—each equipped with a personalized sidebar and specialized tools for managing contest registrations, submissions, and platform-wide statistics.

Movie Master Pro - Advanced Movie Discovery & Collection Platform

[Live](#) | [Client](#) | [Server](#)

Explore and manage movies through a premium interface, advanced search filters, and personalized user dashboards.

- **Sleek Interface:** Built with React 19 and Tailwind CSS v4, offering a modern, responsive design with smooth animations for a premium experience.
- **Advanced Filtering:** Features precise filters for genres and ratings, along with a real-time search option for effortless movie discovery.
- **Role-Based Dashboard:** Includes dedicated dashboards for Users (Watchlists & Collections) and Admins (Content & Database Management).

Cha-Wala - Digital Tea Shop Management

[Live](#) | [Client](#)

Experience the perfect blend of tradition and technology through a platform designed to deliver premium tea and snacks with a seamless ordering experience.

- **Premium User Interface:** Designed with a sleek, ultra-modern aesthetic using GSAP animations and Lenis smooth scrolling, ensuring a high-end visual experience and effortless navigation. Smart
- **Menu & Filtering:** Features a dynamic menu hub with advanced filters for categories and pricing, along with an integrated search option for a personalized shopping journey.
- **Advanced Dashboard:** Implements a comprehensive role-based system for Users and Admins, allowing for efficient management of menus, order tracking, and user data.
- **QR-Powered Token System:** Integrated with QR code technology (HTML5-QRCode) for secure, contactless token validation and streamlined order fulfillment.

Education

Bachelor of Social Science (BSS) in Economics

1st Year

National University, Bangladesh
